

February 5, 2021

Agroservicios de Mexico DDM, S. de R.L. de C.V.

Dear Supplier,

After the successful separation from DowDuPont on June 1, 2019, we have been working on the new Corteva journey for just over a year, always looking for new improvements for farmers, consumers and the world.

As known, Corteva was launched globally with a balanced offering between Seeds and Crop Protection, as well as expanded Digital Services. We currently manage our business through legal entities whose names refer to our old companies.

We are currently working on an initiative that will simplify the work with our suppliers and that consists of transforming the architecture of our legal entity throughout the company. The intended result of this process is to have, in each country, whenever permitted, a single legal entity called Corteva; and have all these legal entities operating in the same SAP system.

Therefore, we inform you that the closing date of **February 5th, 2021** in México, our legal entity **Agroservicios de Mexico DDM, S. de R.L. de C.V.** will change its corporate name to **Corteva Agriscience S. de R.L. de C.V.**

The rest of the legal information, such as the company address and registration Tax ID (RFC) remain unchanged. At this time, only the company name of this specific legal entity will change.

Please update your internal records and systems to reflect the change detailed above. It is also important that, starting **February 5th, 2021**, you handle the Purch Order confirmations and invoices for the new company name. So that, from **February 5th, 2021**, invoices must be issued for the new company name. All existing contracts will remain in full force.

The email address to send invoices will remain unchanged; the email address to send invoices is LATAM.AP4@Pioneer.com & (for XML files only applicable for Mexican Suppliers) mexico-inbound.corteva@pioneer.com.

If you have any questions or need more information, please contact your contract point of contact, local buyer or please write us to lasc@corteva.com, and we can assist you.

We also invite you to visit our Corteva Supplier Center at www.supplier-center.corteva.com, where you can find the latest information about our suppliers.

Robert Suquet
Procurement Manager of Latin America
